This book is from start to finish a fantastic read. From the wonderful characters to the cracking illustrations, it truly is a story that captivates you right from the start. It's not a book you can put down, as you just want to read it all the way through to the end.

Although it's a children's book, I am sure adults will also enjoy this read and, hopefully, it will inspire others to let their imagination run wild and create more of the same. It will certainly bring a smile to anyone who has the pleasure of reading it.
